React JS

EXPERIENCE

BootCamp Le Wagon Brazil (2023)

I'm thrilled to present my full-stack project, featured at Google Campus Brasil. I overcame challenges, showcased dedication, and gained expertise in web development. Ready for exciting opportunities in the coding world!

Project 1: [Bytech Marketplace](#)

In the Bytech Marketplace, I utilized Ruby on Rails to build a responsive, user-friendly platform with product listings, user profiles, and secure payment processing, showcasing my web development expertise

Project 2: [Will For Family](#)

I created "Will For Family," a secure Ruby on Rails website for storing personal messages and information

You can view my projects, be sure to explore my portfolio, where you'll find work I have created.

IT Helpdesk – AT Spacelink Courses (2012-2016)

As a tech professional at Spacelink Courses, I provided consulting services, conducted problem analysis, and delivered effective solutions.

I also led a team of technical professionals and teachers, ensuring efficient lessons. Additionally, I managed school relations, social media, and journalistic tasks.

Senior IT Support Analyst – AT Petrobras S.A (2010-2012)

As a Senior IT Support Analyst at Petrobras, I provided comprehensive technical support, resolved complex computer system issues, and implemented innovative technologies. I also mentored and trained junior team members to enhance their skills and performance.

EDUCATION

FULL STACK DEVELOPMENT – BOOTCAMP 2023

Le Wagon Brazil

Successfully graduated from Le Wagon Brazil's Full Stack Development Bootcamp in 2023, a renowned program in web development education.

BSC IN COMPUTING SCIENCE LV 7 / 2021

Dorset College Dublin

The BSc in Science in Computing prepared me with specialized knowledge and skills to meet the future needs of the ICT industry. The course provided a solid technical foundation in software development, cybersecurity, and computer networks.
